Skills Summary

Programming and Web Development:

- Designed and create a static, mobile-friendly portfolio website hosted on GitHub.
- Developed an E-Commerce API using Node.js and Express.js.
- Completed a Full-Stack Application using the MERN Stack (MongoDB, Express.js, React, Node.js)
- Created a 2D game in Unity 3D using C# as the programming language.
- Proficient in HTML, CSS, and JavaScript for building interactive web pages.
- Experience with front-end frameworks/libraries in the React.
- Familiarity with responsive web design and cross-browser compatibility.
- Knowledgeable in RESTful API's.
- Strong understanding of Node.js and Express.js for server-side development.
- Experience in MongoDB database for data storage and retrieval.
- Knowledge of authentication and authorization techniques (e.g., JWT).

Version Control and Deployment

- Proficient in using Git commands.
- Familiarity with deployment platforms life GitLab, GitHub, Render, and Vercel.

Problem Solving and Algorithmic Thinking:

- Strong analytical and problem-solving skills.
- Ability to quickly learn new technologies.
- Understanding of data structures and algorithms.

Collaboration and Communication

- Strong teamwork and collaboration skills.
- Effective communication and ability to work in cross-functional teams.

Work Experience

Pharmacy Assistant   Mercury Drug Corporation   2018-2023

- Collect, organize, and maintain patient information and profiles.
- Provide general assistance with daily pharmacy activities.
- Take prescriptions from clients in person and over the phone.
- Label products appropriately, including cautionary and auxiliary labels.
- Communicate with customers and staff in a pleasant and professional manner.

Education

Zuitt Web Developer Program (Full Stack Web developer)

Main Course Package

June 05 – July 28, 2023

BS Math major in Computer Science

Bulacan State University

(S.Y. 2013-2017)

Project Experience

Front-end Capstone:

- In my front-end capstone project, I built a portfolio website that is visually appealing and responsive. I utilized HTML5, CSS3 and Bootstrap to create a platform that showcases my abilities as a developer. The project is hosted by GitHub, which demonstrates my proficiency in version control and collaborative development.

Back-end Capstone:

- In my back-end capstone project, I embraced the challenge of creating an E-Commerce API website. I employed MongoDB as the database and utilized Node.js and Express.js to develop server-side functionality and test it in Postman. This allowed me to demonstrate my competence in handling data management and implementing server-side operations for the user experience. The application is hosted on Render, which highlights my understanding of deployment strategies and Web hosting.

Full-stack Capstone:

- In my full-stack capstone project, I developed a web application using React Bootstrap that combines front-end design and back-end integration. This project showcases my expertise in designing captivating user interfaces. It also demonstrates how seamlessly the front-end interacts with the back-end functionalities. The application is hosted on Vercel, further highlighting my experience in deploying and managing full-stack applications.

Additional Skills

- Image design via Adobe Photoshop
- Video editing via Adobe Premiere PRO
- Strong customer service orientation
- Attention to details and accuracy
- Pharmaceutical distribution familiarity
